True 5 Star canal and river cruising

Where we go

Exploring the northern canal & river system

We travel the northern canal and river system, passing through and over some of the wonders of the waterways.

The primary canal is England's longest canal, the Leeds Liverpool. This canal is generally rated to be the canal with the best views in England and is the reason we decided to operate here. We also navigate the Bridgewater canal, the country's first modern canal, the wonderful Selby canal, the River Aire, the Calder and the Aire & Calder navigation.

This system takes us from the west coast at Liverpool all the way across the country to Goole in the east, with a few detours along the way.

Our cruises pass through the great Lancashire countryside and the fabulous Yorkshire dales. With runs up to Selby and down to Manchester we go through tunnels, over swing aqueducts & through the Bingley Five rise.

Skippers Night

What cruise would be complete if it did not have a skippers night?

One night of the cruise we will, please excuse the pun, really push the boat out.

This is a special night starting with a cocktail followed by an 8 course meal, with choices, and ending with a liqueur.

This is a fun evening that means your holiday will end on a real high.

Lady Teal is our pride and joy, we designed her, had her built, achieved a Five Star rating in our first year and had this renewed every year since. We are so lucky with the lovely guests we have, many returning year after year. Whilst we have a time to start a cruise and a place and a time to finish everything in the middle is relaxed and flexible, we say that you are on Lady Teal time. We hope we will be able to welcome you to our world.
